

GRADCO EMPLOYMENT OPPORTUNITIES

DIESEL FITTERS

FLY IN FLY OUT - QLD

Position Issue Date: 26 March 2013

At Gradco, we believe it's our people who've made us renowned as a leader in the delivery of specialist Civil Construction, Contract Mining, and Heavy Haulage services.

Operating for more than 50 years, we pride ourselves in being industry leaders in safety, quality and environmental management. We are committed to providing a safe working environment for all our employees.

Our maintenance team is responsible for the service and maintenance of heavy plant, prime movers and light vehicles across our business.

Having recently commenced further project works in Mt Isa region, we now have opportunities for highly motivated and experienced Diesel Fitters with a proven history to work fly in fly out rosters.

WHAT SKILLS AND EXPERIENCE TO YOU NEED:

- Relevant trade certificates/qualifications
- Relevant mining/earthmoving experience
- A genuine commitment to safety processes and practices
- Experience in the maintenance of Caterpillar, Komatsu and Volvo equipment
- The ability to work independently and unsupervised
- Be able to commit to a flexible fly in fly out roster

At Gradco we believe our strong reputation is built on our proven track record. We commit to offering our employees great working conditions, attractive remuneration packages and a positive work environment that supports continued development.
